

Interested in a Career in GIS?

Working at Pro-West could be just what you're looking for.

Pro-West & Associates, Inc. is an award-winning GIS consulting firm with offices in Walker and Crosslake, MN, but opportunities to work on projects stretching across the entire United States.

We work with government and private industry, using progressive technologies to make what our clients do better using location technology. We show them the true possibilities of GIS, deliver the right solution every time, and add value to every project we work on.
We guarantee to be part of their team.

Who are our people?

At Pro-West, we have a "type". Our people practice our values of focus, excellence, progression, and "owning it", and are some of the best GIS technicians, programmers, and consultants in the industry. We support them with continuous training and challenging projects. We pay well and care about providing quality benefits and a positive work environment.

Visit us at the UND 2018 Fall Career and Internship Fair for Computer Science, Engineering & Technology disciplines, Thursday, September 27 from 11:00am-3:00pm at the UND Wellness Center.
